

Tracking Devices

Roc Box Magnetic Stash Box (Item: E1090)

Are your shoppers looking for the ultimate box to stash keys, valuables or their GPS? This ultra-powerful, dual-magnet GPS device case and stash box delivers incredible results! You will have the ultimate peace of mind knowing this pro-grade container will be securely attached to any magnetic surface no matter what the weather condition. A tight weatherproof seal surrounds the perimeter of the lid and body making it buoyant, crushproof, dustproof and smell proof. Your GPS Tracking device or other small, valuable item will have the highest level of protection available against corrosion or moisture damage thanks to the sturdy and waterproof design. Use it anywhere, even in the harshest of conditions!

Features:

The dual magnet assembly brings you the ultimate level of strength and security. The magnets have an 88-pound direct pull magnetic force rating and can hold the full weight of a propane tank! These magnets also provide the quality you need as the magnets are reinforced and will not break off!

Magnetic Stash Box

Use this professional grade protective case when you need heavy-duty storage and/or a covert transport solution for your favorite GPS Tracker. Or use it as an ultra-durable stash box for storing other small, valuable items such as money and medications. Securely hide and store your house, boat or RV keys.

The easy-to-open-latch makes these items quickly accessible. And it comes in a non-shiny, matte finish making it easy to hide!
