

- Width 3.385 inch (8.6 cm)
- Length 3.385 inch (8.6 cm)
- Side-by-side elements or gangs
- Two-gang duplex outlet plate double gang
- Two side-by-side duplex openings which gives it a total of four openings
- Six sides by side Keystone opening

The Truon CN-KD-FP39 is a versatile and practical wall plate that is perfect for any home or office setting. This wall plate can hold two side-by-side elements, also called gangs. Using outlets makes these gangs a great choice for any electrical setup.

Its unique design allows for multiple options and configurations, which sets it apart from other wall plates. Users can choose the right combination for their specific needs by changing the number of gangs on the wall plate. For example, a two-gang outlet plate has four openings: one double gang and two side-by-side duplex openings. This adaptability makes the Truon CN-KD-FP39 a versatile choice for any wiring situation.

The Truon CN-KD-FP39 is not only functional but also aesthetically pleasing. Its clean and modern design will seamlessly blend in with any decor, adding a touch of sophistication to any room. The sleek and smooth surface is also easy to clean, making it a low-maintenance option for busy households or offices.

At Collsam Distribution, we understand the importance of having high-quality and reliable electrical products. That is why we carry a full line of face plates, including the Truon CN-KD-FP39, to meet all your wiring needs. We use durable materials and rigorously test our face plates to make sure they can withstand daily use and wear. With Collsam Distribution, you can trust that you are getting top-quality products that will last for years to come.
