Eyemax URIR-B4362V Bullet Camera, the perfect solution for all your surveillance needs. This high-quality camera has a 6 Mega Pixel SONY Sensor that captures every detail with clarity. The 4MP resolution of this camera makes it a great choice for both commercial and residential settings.

Even though there isn't much light, the URIR-B4362V Bullet Camera can see up to 197 feet (60.05 m) in darkness. This allows for 24/7 monitoring, providing you with peace of mind knowing that your property is always under watchful eyes.

This camera is weather-resistant and has an IP66 rating, so it can be used both indoors or outdoors. The 2.8-12 mm Varifocal lens offers versatility in capturing various perspectives, while the 1080p resolution ensures that every nuance is captured in crystal-clear clarity.
