- 28 AWG gauge for optimal performance
- Support for 3D, Ethernet, and Audio Return Channel (ARC)
- Bare copper conductors for enhanced image and sound quality
- 24K gold-plated connectors for added durability
- CL3 Rating for Safe In-Wall Installations

Say goodbye to blurry images and distorted sound with the CB-HC20-A020-BK HDMI cable. This cable has fully shielded bare copper conductors that make the image and sound quality crystal clear. This cable's fully shielded design eliminates any potential signal loss, giving you a seamless and uninterrupted connection every time.

But this cable has 24K gold-plated connectors. Adding these connectors to your setup not only elevates the cable's rigidity and shields it from rust, too. This means that you can enjoy optimal performance and durability for years to come. The gold plating on your HDMI cables will allow you to enjoy your favorite content without any issues.

Safety is always a top priority, especially when it comes to in-wall installations. The HC20-A020-BK HDMI cable is rated CL3. Safe and reliable because it has been tested and approved for wall installation. A seamless and secure connection will be provided throughout its lifespan with its CL3 rating.
