

Features

- 1 Female
- Copper Conductor Material
- Color: Black
- 12V DC Power Leads
- Length: 6 inch (15.24 cm)

The DC power TR-PIGTAIL2 pigtail is an essential component for any security system installation. This pigtail lets you connect your surveillance cameras to your power source.

This pigtail can work with many security cameras because it has a male coaxial power plug and two wires. You can connect your cameras to your power source with the 6-inch pigtail, which measures 15.24 cm in length.

The TR-PIGTAIL2 pigtail has been made to last a long time. Good materials and durability make it suitable for everyday use. This makes it a good choice for a long time. This pigtail is also easy to install, making it a great option for both DIY enthusiasts and professional installers alike.
