

Power Kingdom BT-PS06V0120T2 6V 12Ah valve regulated lead-acid (VRLA) SLA Sealed Lead Acid Battery F1 Terminal Replacement

6V 12AH SLA Battery

- Voltage: 6 Volt
- Capacity: 12 AH
- Battery Chemistry: Lead Acid
- Part Number: 612LA-BH
- Exit Emergency Light Battery Replacement
- Size Dimensions: 5.9" x 2" x 3.70"
- Weight: 62 oz
- F1 Terminal

Introducing the Power Kingdom BT-PS06V0120T2, the best quality gel valve regulated lead-acid (VRLA) battery rechargeable on the market. This 6V 12Ah sealed lead acid battery is a top-of-the-line replacement for your energy storage needs. With its coagulated (thickened) gel construction, this battery is spill-proof and safe for use in various applications. The Power Kingdom BT-PS06V0120T2 is the perfect battery for your emergency backup system, uninterruptible power supply, or electric vehicle.

One of the standout features of this battery is its valve regulated design. The valve regulates the internal pressure of the battery, preventing any dangerous gases from building up and causing potential hazards. This ensures the safety of both the battery and the user. The battery's gel construction also implies that it's partially sealed, with vents to let out any gases that might be accidentally released, such as during overcharging. This further adds to the safety and longevity of the battery.

At Collsam Distribution, we understand the importance of reliable and durable batteries. That's why we are proud to be your go-to source for VRLA batteries, including the Power Kingdom BT-PS06V0120T2. Our commitment to quality means that you can trust our batteries to perform consistently and efficiently, day after day. Whether you are a business in need of bulk orders or an individual looking for a single replacement battery, we have you covered.
