Telpix CN-SB136 BNC T Adapter – the ultimate solution for all your BNC cable connection needs. You can use this Coaxial Adapter to connect two BNC cables to one. This is a good choice for audio and visual setups.

The Telpix CN-SB136 BNC T Adapter is good at working. It has a special connector that connects three BNC female connectors. This means you can connect many BNC cables without having to use many adapters. This makes setting up faster and better.

Constructed with high-grade materials, this BNC T Adapter is built to last. The nickel-plated connectors not only provide a sleek and professional look, but also ensure superior durability and long-lasting performance. You can trust that your BNC cables will remain securely connected, avoiding any signal loss or interference.
