

CN-FS2T1-W (10 Pack) wall insert comes with two keystone ports. This makes it a great choice for any home network setup

- White plastic exterior; snap in design; modular wall insert; two ports.
- Clean aesthetic look: Smooth, white plastic exterior fits in with any décor.
- The Snap-in design securely holds the insert in place.
- Two ports allow for multiple networking options.

The CN-FS2T1-W (10 pack) White 2 Port Décor Plastic Keystone Snap-in Jack Modular Wall Insert is a stylish and convenient way to connect multiple devices with one wall socket. This wall insert is designed to streamline the connection process, while allowing homeowners to enjoy the modern aesthetic of white plastic décor.

The CN-FS2T1-W (10 pack) insert is made from quality, Eco-friendly ABS material. It is designed to be extra durable and to withstand bumps and scrapes, while maintaining the chic white look. The wall socket is eleven millimeters deep, which is just enough to provide a snug fit without obstructing other items that may need to be attached. The clip-in design ensures the insert remains securely in place while being easily removed when necessary.

The CN-FS2T1-W (10 pack) wall insert comes with two keystone ports. This makes it a great choice for any home network setup. It allows the user to plug in two devices, such as routers, computers, or smartphones. Each port is equipped with built-in protection that keeps power surges at bay and provides a secure connection.

The CN-FS2T1-W (10 pack) White 2 Port Décor Plastic Keystone Snap-in Jack Modular Wall Insert is an affordable and highly versatile choice for those needing multiple networking ports in a clean aesthetic setting. With its snap-in design and white plastic exterior, the insert offers a secure fit and meets both design and functional requirements.

Overall, the CN-FS2T1-W (10 pack) White 2 Port Décor Plastic Keystone Snap-in Jack Modular Wall Insert is a great choice for any home networking setup. It is stylish, reliable, and easy to install. The wall insert is also designed to be durable and provides strong protection for the user's electronic devices.
