The CN-KD-FP01 1 Port Faceplate RJ45 Frame with Shutter is an outstanding piece of durably built equipment that is perfect for a wide range of commercial usages. This faceplate is made from durable ABS plastic, making it incredibly reliable and able to handle whatever comes its way. It is 3.38 inches (8.59 cm) wide and 3.88 inches (9.86 cm) tall, making it small enough to fit in just about any area without being too noticeable.

The CN-KD-FP01 1 Port Faceplate is made with the user in mind. It features an RJ45 port that can easily be accessed and is perfect for a wide range of cables, including Cat6. The fact that it has a shutter provides added security for the user. The shutter helps to protect the port when it is not in use, thus ensuring that no dust or other dangerous particles enter the system.

The CN-KD-FP01 1 Port Faceplate RJ45 Frame with Shutter is incredibly easy to install. It comes with a user manual that walks you through the entire process, allowing even the most novice user to get it up and running in no time. The faceplate even comes with all the necessary hardware, meaning you don't have to purchase any additional pieces to get it going.

The CN-KD-FP01 1 Port Faceplate RJ45 Frame with Shutter is an exceptional product that is perfect for commercial usage. It is made from durable ABS plastic and comes with a shutter for added security. It is incredibly easy to install and is quite cost-effective. All in all, this product is an excellent choice for those who are looking to upgrade their setup and add a level of security to their system.
