- Adds signature look to home or business
- Easy to install
- 10 pack for multiple outlets

When it comes to giving any home or business a signature look, having the right combination of features can really make a difference. The CN-KD-FP37 (10 Pack) Dual Gang Décor/GFCI Device Faceplate Standard Size Thermoses Device Mount White is a must-have accessory for just that!

The CN-KD-FP37 is designed to cover all the unsightly electrical outlets and switches that can make a wall appear cluttered and unprofessional. With the CN-KD-FP37, you can give any wall a sleek and polished look without having to cut holes or make other alterations. This faceplate is made of a strong thermoplastic material that is designed to withstand wear and tear, as well as the higher temperatures that are associated with GFCI outlets and devices.

In addition to its durable design, the CN-KD-FP37 is incredibly easy to install. All that's required is a screwdriver and a few minutes of your time. You don't have to worry about wall repair if you need to take the faceplate off; the thermoplastic material is designed to be reusable, so you can simply snap it off and snap it back on again whenever needed.

Finally, the CN-KD-FP37 is an incredibly affordable faceplate option. You can get the perfect finishing touch to any wall and give it the signature look you have been looking for without having to break the bank.
