- Suitable for various applications
- Durable and long-lasting
- Cable length of 03 meters
- VGA/SVGA compatibility
- Gold-plated connectors
- Oxygen-free copper conductors

Do you have trouble seeing clearly on your screen? Look no further than the Telpix CB-VGA341AD-03M VGA/SVGA Premium Shielded Monitor cable. Designed for both in-home desktop use and in-wall commercial applications, this cable allows for seamless source to display connectivity with a maximum resolution of 1920 × 1080. Say goodbye to frustratingly low-quality images and videos and hello to crystal clear visuals with the Telpix CB-VGA341AD-03M.

Complete foiled and braided shielding is one of the key features of this cable. This innovative design reduces interference and noise, providing you with a clean and reliable connection between your source and display. No more pesky flickering screens or fuzzy images - the Telpix CB-VGA341AD-03M ensures a stable and high-quality signal every time.

The Telpix CB-VGA341AD-03M also boasts fifteen fully wired pins, providing support for DDC2 (E-DDC) and Extended Display Identification Data (EDID) signals. The message looks good on your screen. This results in a seamless and optimized viewing experience, regardless of what type of content you are watching.
