

TIA/EIA 568A Wiring

TIA/EIA 568B Wiring

FEATURES

- High quality bulk rolls of Ethernet cables
- Perfect for custom network installation projects
- Available in a 1000 ft (304.8 m) pull box spool
- Unparalleled value for its performance and cost
- Terminate with high quality modular RJ45 connectors
- Available in 7 colors for customization
- Gigabit ready for high bandwidth applications
- High-performance bulk cabling
- Cut lengths to meet exact needs
- Superior performance for high bandwidth applications
- Flexible and easy to install
- Durable and long-lasting
- Conforms to CAT5e standards
- Suitable for both residential and commercial use
- Compatible with various devices
- Can be used for both data and voice transmission
