

The CB-C5UA005 is a high-quality 5 ft (1.52 m) Cat5e patch cable, designed to provide reliable Ethernet network connections. This tool can be used at home and in the office. The CB-C5UA005 ensures fast and stable data transmission, so you can have seamless connectivity for all your networking needs.

One of the standout features of the patch cable is its durable PVC jacket. This cover makes the cable stronger and allows you to color-code your network cables. This means that you can easily identify and differentiate between cables, making it easier to manage and troubleshoot your network. The CB-C5UA005's color-coded design will be useful and practical, regardless of what network setup you have.

With the CB-C5UA005, you can rest assured that you are getting top-of-the-line quality. This wire is made to work well and be reliable. It meets or exceeds Cat 5e requirements. Good materials go into it, so it's tough enough to handle daily use and keep up with a busy network. The CB-C5UA005 is a good choice for people who want a cable that will last.
