 - Smart Home Devices

When it comes to powering up 4 cameras with a single power adapter, the TR-PIGTAIL4 1 in 4 out power pigtail is an essential tool. This heavy-duty power pigtail features one female input and four male output ports. It is designed to provide a simple, efficient, and reliable way to link multiple cameras to a central power source, allowing for easy installation and maximum convenience.

Whether you are installing a security system, a surveillance system, or simply need to connect multiple cameras to your computer, the TR-PIGTAIL4 1 in 4 out power pigtail is the ideal solution. This power pigtail is designed to provide an uninterrupted stream of power to four cameras, ensuring that your system is running at full capacity. The pigtail is also easy to install, eliminating the need for complex wiring or special tools.

The TR-PIGTAIL4 1 in 4 out power pigtail is constructed from heavy-duty materials to ensure longevity and dependability. The 24-gauge wire is both flexible and durable to ensure a secure connection and efficient transfer of power. The three-pronged plug is simple to plug and unplug, making this power pigtail a breeze to use.

The TR-PIGTAIL4 1 in 4 out power pigtail is also designed with safety in mind. This pigtail is UL approved and features a built-in surge protector to ensure that no matter the fluctuations in current, your system is safe from sudden power losses. This power pigtail also offers protection against over-voltage and short-circuiting, making it the perfect choice for your electrical systems.
