

Fisheye Bracket AM-216

The Vivotek AM-216 is the perfect accessory for enhancing the performance of your Vivotek FE8180 and FE9180-H fisheye network cameras. This bracket has a 15-degree tilt, so you can move the camera to see more of the desired area.

The premium ABS and durable polycarbonate comprise the Vivotek AM-216. It will not break in bad weather and will last a long time. It works great indoors or outdoors and will last a long time with your Fisheye network cameras.

You can use your cameras to keep an eye on your home or business, or for any other reason. The Vivotek AM-216 will help you get the most out of them.
