The ABT-1 DS-1281ZJ-DM23 Angled Base for Hikvision Turret Cameras is the perfect base for various Hikvision network cameras. This base has been designed specifically for use with the DS-2CD23x2-I, DS-2CE56x2N-IT3, DS-2CE5582N-IR1, and DS-2CE5582N-IR3 Hikvision cameras. The base is constructed from high-quality materials and is built to last, thanks to its durable construction. Additionally, the base has been subjected to a special surface spray treatment that helps to protect it from the elements.

The ABT-1 DS-1281ZJ-DM23 Angled Base is perfect for various environments. It is constructed so that it can easily be mounted on the wall, ceiling, or table. The angle of the base can be adjusted to perfectly fit the camera that it is being used with, so you never have to worry about it not being positioned correctly. Additionally, the base has been designed to be as aesthetically pleasing as possible. Its modern design will help it blend seamlessly into any environment.

This ABT-1 DS-1281ZJ-DM23 base offers various features that will help to make your Hikvision camera install and use easier. The base is equipped with several adjustable parts that allow it to be quickly and easily adjusted to fit your needs. Additionally, the base has been constructed to provide a secure platform for your camera, ensuring that it won't shift or move around, even in windy or unstable environments.
