The CM-JB03-C Junction box is an incredibly versatile and well-designed product, perfect for use in a variety of scenarios. It is made from white aluminum alloy material with IP57 surface spray treatment, ensuring the highest quality performance and longevity. It is a compact solution to organizing your camera's cables, with a size of 6.01 inches (15.27 cm)  $\times$  2.43 inches (6.17 cm).

The CM-JB03-C junction box is an ideal fit for NIT C or TO C Vari-focal Lens models. It provides cable organization and collection, which creates a neater, more elegant installation. In addition, it has both bottom and side inlet junctions for an added level of convenience. It also features wall or ceiling mounting capabilities, depending on your specific needs and preferences.

The CM-JB03-C junction box is incredibly simple to install, as it comes with all necessary components and hardware, such as screws and bolts, for your convenience. It also includes a mounting bracket for added stability and security. Additionally, the box is designed to be dust and waterproof with an IP57 rating, protecting it against any external damage or interference.
