The Telpix HM-40S compact CCTV Adjustable Universal Security Camera J Mount Bracket is a must-have for any security system installation. A whole aluminum alloy construction with a white anti-rust paint surface coating makes this bracket both sturdy and durable. Measuring 8 inches (20.32 cm) in length, this bracket is the perfect size for indoor and outdoor applications.

The Telpix HM-40S has a rotating top that can be adjusted to different angles for the best protection. You can change the viewing angle to meet your surveillance needs with this feature. This makes it an ideal choice for both residential and commercial properties, providing enhanced security and peace of mind.

With its universal camera bracket, the Telpix HM-40S offers a lot of versatility for creative mounting applications. It can be easily installed on walls or ceilings, making it perfect for both indoor and outdoor use. Its compact size also allows for installation in tight spaces, such as corners or near windows, without compromising on functionality. This makes it a great option for those looking for an inconspicuous yet effective security camera installation.
