

## How Does It Work

Imagine, you are not at home and your children have locked themselves out or the courier delivers a package. With Door bird this is no longer a problem. Each time someone rings the doorbell you get a push notification on your smart phone or tablet. You can then not only talk to the visitor but also see him in HD quality. You will never miss a visitor again. With Door bird you are on the go and still at home, even if a burglar presses the doorbell to check if someone is at home.

### Smart Home Starts at the Front Door

Door bird is the smart solution for your door entrance. The IP Video Door Station can be used as a stand-alone unit or can be integrated into an existing Smart-Home platform. Even existing classic installations such as a door chime or an electric door and gate opener can still be used and controlled via the App. Quality Made in Germany

- Weatherproof IP Intercom video door station. Made of brushed stainless-steel, designed for both indoor and outdoor use.
- Connects with smartphones for easy access control.
- Wall mountable with flush mounting plate and screws.
- Comes with full instructions, and mounting tools for a quick and easy installation.

### Display Module.

- Built-in 7-inch LCD color display.
- HD video call, two-way audio, and live view.
- Motion detection and night vision for added security.
- Keypad Module.
- Easily programmable keypad with directory and RFID access.
- Touchscreen operation for user-friendly access.

Stores up to 50 user codes for secure entry.

### RFID.

- Supports 125kHz RFID for added access control. Tags are sold separately, and can be programmed for hundreds of access combinations.
- Durable card reader with integrated LED display for easy operation
