

ViRDI DA-BR-DH505 is the perfect solution for large-scale buildings that need fire escape doors that can safely and quickly close in the event of an emergency

The ViRDI DA-BR-DH505 is the perfect solution for large-scale buildings that need fire escape doors that can safely and quickly close in the event of an emergency. The door holder is made to hold the fire alarm plate and let it go as quickly as possible in the event of fire.

- Suitable for fire escape doors in large-scale buildings
- Releases armature plate and allows door closer to close the door during emergency
- Keeps smoke in a limited area
- Flush Wall-mounted installation
- Adjustable or fixed armature plate
- 12 or 24VDC with a Built-in voltage spike suppressor
- Adjustable or fixed armature plate
- No residual magnetism
- 100 lbs of holding force

Safety is the number one priority for any facility, and the ViRDI DA-BR-DH505 is the perfect solution to ensure your fire escape doors can quickly and safely close during an emergency. With its 100 pounds (45.36 kg) of holding force, adjustable or fixed armature plate, wall flush mounted installation, and built-in voltage spike suppressor, it is clear that the ViRDI DA-BR-DH505 is a must-have for any large-scale building that needs reliable fire protection.
