

- Unique 18-digit ID number pre-programmed on each card (ABA/Wiegand codes)
- Read only RFID card (cannot be programmed)
- Operation Frequency: 125KHz chip
- Compatible with standard 125KHz RFID cards
- Supports Door Electric Lock System
- Easy to install and operate
- Low cost, reliable access control solution
- Durable construction, ideal for harsh environments
- Convenient for access control, attendance check, etc.

This 125KHz Access Control Card Proximity is a smart card that makes it easy to use and secure. Any door electric lock system is compatible with it. Its pre-programmed 18-digit ID number makes it a quick, and reliable way to open doors. Due to its strong and durable construction, this card is suitable for long-term access control.

This RFID card is perfect for door access control systems, and is compatible with all standard 125KHz RFID cards. You can only read the computer's chip. You can't program it. It has an 18-digit ABA code and an 8-digit Wiegand code, respectively. This makes it easy to find and check the card in a safe place.

The card is perfect for any type of area that requires a secure door entry, from offices, to garages, to warehouses. Its low frequency makes it easy to use in a lot of access control systems without worrying about interference.
