

ASM202 DHI-ASM202

Fingerprint Enrollment Reader

- Enables customers to on-board personnel and can be used as part of an access control solution
 - Specifications: 500 DPI resolution, entry time of ≤ 350 m.s. and response time of ≤ 1.5 s
 - No technical expertise required for installation
 - High-resolution fingerprint sensor for accurate authentication
- Rapid response and entry times

| Technical Specification | | |
|-------------------------|----------------------|------------|
| Mode | ASM202 | DHI-ASM202 |
| System | | |
| Resolution | 500 DPI | |
| Collection Window | L18xW15mm | |
| Entry Time | ≤ 350 ms | |
| FAR | $\leq 0.0001\%$ | |
| FRR | $\leq 0.014\%$ | |
| Compare time | ≤ 1.5 s | |
| General | | |
| Power Supply | DC 3.8-7 | |
| Communication interface | USB | |
| Operating Temperature | 0°C to +55°C | |
| Working Humidity | 20%-90% (no frost) | |
| Dimension(WxDxH) | 87.55mmx66.64mmx40mm | |
| Working Environment | Indoor | |
| Certificates | | |
| CE | Yes | |
| FCC | Yes | |
