SMH-D21023V A surface-Mounting Housing (Back Box) for DoorBird Door Station is designed to offer added protection to your intercom system. This back box provides a sturdy, tamper-resistant, stainless steel, housing for the Door Station components. This housing is specifically designed to fit DoorBird Door Station models D2102V, D2103V, D2101FV FINGERPRINT 50, D2101FV EKEY, or D2101TFV.

The SMH-D21023V back box is constructed from high-grade stainless steel V4A (also known as 316 stainless-steel) which is not only rust and corrosion resistant, but also able to withstand salt water and grinding dust. It is an ideal choice for the marine industry and any environment where high quality is essential. With the stainless-steel construction, you have a weatherproof housing that will last for years to come.

The SMH-D21023V Surface-Mounting Housing (Back Box) for DoorBird Door Station is an essential accessory for any Doorbird Door Station. With its robust construction and weatherproof features, you are sure to have a secure and durable system that will provide long-lasting protection. Providing added security, increased durability, and a finished look, this housing is the perfect addition to your door station setup.
