

CN-KD-CB27 Network Splitter is an RJ-45 (M) to RJ-45 (F) double shielded 2-Port Modular Distributor

- It requires two units to utilize its full capabilities.
Doubles network port capacity
- Maximum transmission speed of up to 100 Mbps
- Capable of up to 50m of signal transmission
- High shielding for greater signal stability
Reliable signal transmission
- Maximizes network capacity by allowing two RJ45 ports to share one Cat5e network cable.
- Easily adds new ports or extends transmission distance.
- Allows for greater signal stability and reliable signal transmission.
- Easy to install and compatible with existing networks.
- Compatible with Cat5e, Cat6 and other Ethernet cables
Two RJ45 (M) type ports
- Two RJ45 (F) type ports
- 10/100 Mbps signal transmission speed
- Shielded for maximum signal stability and reliability
- 50m signal transmission range
- High-grade connectivity performance
- Silver finish for attractive aesthetics

Are you in need of a dependable device to help you share a single Cat5e network cable between two devices? The CN-KD-CB27 Network Splitter RJ-45 (M) to RJ-45 (F) double shielded 2-Port Modular Distributor is the perfect tool for the job!

This CN-KD-CB27 high-quality network splitter is made from silver-plated zinc alloy, making it both tough and durable. It is also double shielded, making it immune to electromagnetic disturbances and interference. The Cat5e, FTP rating of this splitter means that it can handle signals up to 100Mhz! And because it only requires 2 units, you can get your network up and running with ease.

When it comes to convenience, CN-KD-CB27 network splitter doesn't disappoint. It is designed to be quick and easy to install. With just one Cat5e network cable, you can connect two RJ45 ports to the same cable, meaning you don't have to waste time and energy with cables running all over your office or home. This splitter also has a nice compact size, making it easy to store and transport.
