

SBP-C14BP3    SBP-C14BP1

- Minimizes Dust Accumulation
- Covers Unused Slot on SBP-C14 Card Cage
- Automatic electronic current limiting feature
- Voltage transient protection on all power and signal input/output lines provides unconditional protection from power surges and other voltage transient events.
- All modules located within the chassis rack are hot-swappable.

The Hanwha Vision SBP-C14BP1 is the perfect solution to keep your SBP-C14 card cage rack clean and organized. The purpose of this blank 1-slot filler panel is to cover any vacant SBP-C14 card cage slots. It helps prevent dust and debris from entering the system. As a result, it is an essential accessory for any professional installation. It ensures the smooth operation and longevity of your equipment.

Crafted from high-quality plastic, the SBP-C14BP1 is a durable and reliable solution for covering unused slots in the Hanwha SBP-C14 card cage rack. The black color blends seamlessly with the aesthetics of the rack. This maintains a neat and professional appearance. This filler panel was made especially for the Hanwha SBP-C14 rack mount card cage system, which is significant. Thus, it ensures a perfect fit and compatibility.

The installation process for the SBP-C14BP1 is user-friendly and does not require any tools. It quickly and easily snaps into place on the card cage rack and requires no tools to install. This allows for a hassle-free and convenient setup, saving time and effort. The panel also features a secure snap-lock mechanism, ensuring it stays in place and does not fall off during use
