The TR-DC441 DC 12v 4 Channel Power Adapter is the perfect way to power up to four 12 VDC cameras. UL-certified, this lightweight power source ensures dependable operation for your video surveillance setup. It's ideal for both enhancing existing systems and introducing new ones because of the rating of this power adapter.

Collsam Distribution, a company that knows a lot about CCTV, made this power adapter with good materials and new technology. It's a good choice for both people who buy it from stores and people who install CCTV. Collsam Distribution has been providing high-quality CCTV accessories for years.

One of the standout features of the TR-DC441 is its compact size. This power supply is compact enough to fit into tight spaces, making it ideal for discreet installations. You no longer have to worry about bulky power adapters taking up precious space in your setup. This compact design also makes it easier to transport and install, saving you time and effort in the setup process.
