Overview

LumiCloud enterprise-grade cellular data packages are designed to meet the high data demands of business users, offering up to 200GB of high-speed 4G data supporting AT&T, Verizon, and T-Mobile in the USA, and Rogers, Bell, and Telus in Canada. Data subscriptions are offered as monthly, 6-month or 12-month plans.

Key Technology

LumiCloud data packages provide reliable nationwide 4G cellular data coverage by utilizing the top networks in North America.

LumiCloud has the capability to automatically identify and connect to the most optimal network available in your vicinity.

LumiCloud data packages support remote connectivity between the LumiGuardian Solar Trailer and LumiCloud.
