16CH 1080p HD-TVI Solomon Protected Security System w/ 6TB HDD installation

① SOLOMON protected security system

Can be installed at where people would think the least place DVR can be, like in an electrical room or even on a wall above ceiling.

② Independent Monitoring Location

At the user end, You just need a monitor and a mouse to watch and operating your DVR. No one knows where the DVR is except you.

③ Video + Control Cable up to 300ft

You can extend cable up to 300ft. Place it wherever you want.
