

The PBN-TEC PBN-DIK is a powerful and all-inclusive Digital Investigation Kit. It is essential for professionals in law enforcement, private investigation agencies, human resources, and IT security. It is a comprehensive suite of software and tools specifically designed for digital forensics and data extraction.

These tools are compatible with various electronic devices such as smartphones, tablets, and computers. With its advanced features and user-friendly interface, the PBN-DIK offers a reliable and efficient solution for extracting, analyzing, and recovering data from digital devices.

One of the standout features of the PBN-DIK is its unlimited use license. It includes free lifetime updates. This means that professionals can use the software for as long as they need, without any additional fees or charges. It also ensures the software is always up-to-date with the latest advancements in digital forensics. This provides users with the most advanced tools and techniques for their investigations.
